ENGLISH

MACROVITA NATURAL COSMETICS

The close relationship between the founders of MACROVITA and two exceptionally fascinating sectors of scientific knowledge, homeopathy and apitherapy, has always been and still remains the primary motivation for the design and development of MACROVITA natural cosmetics, that have achieved the impossible: to remain in the vanguard since 1984, due to their dedicated use of natural ingredients and the obsession with constant creative innovations.

Their contemporary global identity has the following features: they are dermatologically tested natural cosmetics with organic vegetable oils or extracts, enriched with the remarkable properties of bee byproducts and, in addition, with vitamins, certain biotechnology products, coenzymes and trace elements. They do not contain mineral oil, vaseline, propylene glycol and parabens, and they are environmentally friendly. These unique product lines meet facial, body and hair care needs fully and effectively.

Natural cosmetics

with organic olive oil

Latest scientific research has confirmed the accumulated empirical knowledge of many centuries, perceiving olive oil as being extremely beneficial to the human skin, thus, helping it to formally become the main ingredient of high-level cosmetics.

MACROVITA cosmetic line with organic olive oil combines a variety of precious ingredients with royal jelly in addition to many more organic oils or extracts, bee product derivatives and vitamins.

These sophisticated combinations exert strong antioxidant, emollient, moisturizing, firming and anti-irritating activity, resulting in an immediate appearance improvement as well as a spectacular skin aging delay. Products of the line cover ideally and in a natural way face, body and hair care needs.

Olive & Argan

with organic argan oil & organic olive oil

The use of Moroccan Argan Oil in the south Mediterranean coast as well as that of Olive Oil in the north concealed, for many centuries, the precious secrets of Mediterranean skin care. Nowadays, advanced scientific research has revealed that these wonderful natural products contain an abundance of very strong antioxidant and cosmetic agents: terpenoids, carotenoids, iridoids, flavonoids, polyphenols, sugars, vitamins, monounsaturated and polyunsaturated essential fatty acids. MACROVITA Olive & Argan cosmetic product line perfectly combines these active organic agents, which complement each other, to provide skin hydration and nourishment, further to wrinkle reduction, tightening and protection from the factors that cause premature aging. Thanks to MACROVITA, the precious hidden secrets of Mediterranean beauty now belong to everyone.

Absolute age defense is achieved with the new generation of Olive & Argan products! Enriched with enhanced hyaluronic acid, Argan stem cells as well as moisturizing and anti-pollution agents, they offer deep and long-lasting hydration, protecting from the ravages of time in addition to the adverse environmental influences, and enhance skin stem cells in a natural way, thus maintaining the skin visibly youthful, firm and shiny.

INNOVATION BASED ON EPIGENETICS

The passing of the years, the modern messy and exhausting lifestyle as well as the continuously growing environmental influences are only some of the factors that disturb the biological balance of skin cells, resulting in the excessive acceleration of the natural process of skin aging.

The new, reformulated rice line is based on the innovative expertise of Epigenetics. Harmonically combines the excellent cosmetic properties of rice, calendula and coenzyme Q10 with those of many other organic vegetable oils, extracts and vitamins, allowing skin cells to quickly adapt to external stress and increase their life span, in order to restore and maintain skin youth.

The products of the line drastically fight against wrinkles and aging signs, thus spectacularly improving skin texture and facial appearance.

Vegetable cosmetic oils

with vitamin E

The traditional cosmetic use of vegetable oils lasts for centuries now, as their beneficial effect on the skin has been proven empirically. The wealth of their nutritive and softening ingredients makes them ideal for maintaining skin's health, since they offer the necessary nourishment and hydration. Absolutely pure, they do not cause irritations and are safe to use directly on the skin or as carriers of essential oils for various kinds of massage.

MACROVITA vegetable cosmetic oils are products with a particularly simple composition. They encapsulate the beneficial properties of plants and transfer them intact on the face, body and hair. Produced by cold pressing, in order to avoid the destruction of their valuable ingredients from heat, they are enriched with vitamin E for protection against oxidation and are packaged in dark blue glass containers for elimination of UV radiation adverse effects. They can be used individually, blended together or with essential oils, or even with other cosmetic preparations.

Complete product line for the care of infants & children

The skin is the largest organ of the body as well as the separating barrier, protecting the organism from external attacks. Therefore, it is very important to take good care of its health, even from the very first hours of life.

Children's skin is constantly developing as they grow older, whereas some of its components become fully functional only during puberty. Newborn babies do not have fully developed sweat and sebaceous glands. As a result, their skin becomes dry and more vulnerable to infections caused by germs, bacteria and pollutants. This is the reason why infants often demonstrate skin irritations and eczema during their first year of life without, however, necessarily suffering from a certain skin disease. Moreover, the absence of the basic protective layer, which develops after the eighth year of age and is finalized during adolescence, makes infant skin more sensitive.

MACROVITA has created the new HIPPO product line with the utmost respect to the specialized skin needs of infants and children, combined with the latest results of modern scientific research. With sophisticated combinations of vegetable oils, extracts and vitamins, as always inspired by nature, the products of the line are very gentle and particularly safe for the sensitive skin of our young friends. Dermatologically tested on sensitive skin, hypoallergenic*, with natural ingredients up to 97%.
